

Requirements / Rider

PERFORMANCE CONDITIONS: To support a successful performance, Client agrees to provide the following:

STAGING: Stage or riser with a minimum surface area of 12'x24.' If risers are used, it is best to ensure these risers are sturdy without any cracks between the sections and for the riser to be flush up against a wall. If the performance is on the ground floor without a stage it is important that the audience will be able to clearly view the stage area or gym floor.

SEATING ARRANGEMENT: Please sit audience directly in front of Robb in a theater style setting. No seating behind or to the side of Robb while he speaks. If Robb is speaking at a school, he prefers to have the assembly in an auditorium. If a gymnasium is the only option, sit students only on one side with the remainder on the gym floor or contact us to discuss other options. The audience should be seated as close to the stage as possible.

TABLE:

1 small table/desk (Like the size of a card table. This is for props)

A/V REQUIREMENTS:

Robb brings his own headset Mic that will plug in to most any system so he can have his hands free.

- 1 Handheld Mic for audience volunteers
- Stage lighting if available
- Video Projector & Screen
- Sound for computer
- 2 Bottles of water
- 2 Cans of soda. (Must be cans and doesn't matter the brand - Used in performance)

The Client is responsible for sharing these requirements with the appropriate parties (tech crew, planning committee, etc.). It is very important to distribute this sheet. If these requirements are not followed, Robb does not guarantee the success of his speech.

If for any reason you feel as if you cannot meet these requirements please contact Robb at 214.864.3075.
